

– NO MORE BUSINESS AS USUAL –

**WHY HIRE DAVE MCINTYRE AS YOUR REPRESENTATIVE TO CONGRESS**

A radical President, a destructive Democratic majority in Congress, and a go along-get along Republican minority is driving the United States to an economic, moral and Constitutional disaster.

Only fundamental reform in Congress will secure and restore the America we love. We must:

- Control Spending
- Control Bureaucracy
- Restore Constitutional primacy to government operations.

Among the Republican candidates for Texas Congressional District 17, **only Dave McIntyre has the background and experience to beat Chet Edwards**, challenge business as usual, and carry this message of fundamental reform to Washington, DC.

1. **Dave is the only real and current expert in this race on national level issues** – not because he says he is an expert, but because other people have called on him as an expert scores of times. (see the partial list of authorities who have called on Dave on the reverse)
2. **Dave is the only one in this race ready to meet Chet Edwards head to head on national issues.** Dave has practical on-the-ground experience with every major challenge we face – from terrorism and border security to creating economic power and preparing people for jobs. He is a 30 year veteran from a family of veterans. He has been a speechwriter, a teacher, a radio host, and a national TV commentator. He can speak on national issues.
3. **Dave years ago identified the critical issues we are all focused on today.** During his 22 years as a national strategist he has repeatedly warned that our current trajectory as a nation is unsustainable. And he has a strategy for what to do about it.
4. **Dave understands that a “thinking enemy” will work hard to undermine any reforms you design.** He is ready for those in Washington and here at home who will try to distract us with business as usual - short term needs, or personality differences, or emotional issues like jobs - so we will forget about the need for fundamental reform in Washington.
  - **Dave is the only one** in this race **recognized BY OTHERS as a CURRENT NATIONAL EXPERT** on our key issues. He will not have to train on-the-job.
  - **Dave is the only one** who can stand up to Chet on those issues.
  - **Dave is the only one** talking in depth about the real catastrophe facing our nation.
  - **Dave is the only one** focused on fundamental reform in Washington in both parties – NOT BUSINESS AS USUAL

REJECT BUSINESS AS USUAL  
**FIRE CHET – HIRE DAVE**  
Let's Get American Working Again

## **Who Says Dave McIntyre is an Expert on National Issues?**
